* if equipped

[#] Number in brackets indicates chapter in Owner’s Manual

The illustrations in this guide may vary from the actual vehicle.
Instrument Panel Overview / Engine Compartment

1. Driver’s front air bag [3]
2. Light/Turn signal control lever [4]
5. Audio remote control buttons* [4]
6. Cruise control/Speed limiter switches* [5]

7. LCD display/Trip computer* [4]
11. Front seat warmer* [3]
12. Climate control system [4]
13. Passenger’s front air bag [3]

15. Power outlet/Cigarette lighter* [4]
17. Parking brake [5]
21. Steering wheel warmer* [4]

1. Engine coolant reservoir [7]
2. Engine oil filler cap [7]
4. Positive battery terminal [7]
5. Negative battery terminal [7]
7. Air cleaner [7]
10. Windshield washer fluid reservoir [7]
Operating door locks manually [4]

Operating door locks from inside the vehicle with central door lock switch [4]

Emergency door locking [4]

Child-protector rear door lock [4]

Opening the tailgate [4]

Emergency tailgate release [4]

Opening the bonnet [4]
Pull the release lever to unlatch the bonnet.

Opening the fuel filler [4]
Pull up the fuel-filler lid release lever.

Lift the bonnet slightly.
Push the secondary latch inside and open the bonnet.

Release the support rod and insert it into the position shown.

Closing the fuel filler
1. Turn cap clockwise until it “clicks” to ensure it is securely closed.
2. Close the lid and press the edge until it is securely locked.
Windows / Wipers and Washers

Windows [4]

A: Wiper speed control (front)
   2    High wiper speed
   1    Low wiper speed
   ---  Intermittent wipe
   0    OFF
   △   Single wipe

B: Intermittent control wipe time adjustment

C: Wash with brief wipes (front)

D: Rear wiper/washer control
   High wiper speed
   ---  Low wiper speed
   0    OFF

E: Wash with brief wipes (rear)

1  Driver’s door power window switch
2  Front passenger’s door power window switch
3  Rear door (right) power window switch*
4  Rear door (left) power window switch*
5  Window opening and closing
6  Automatic power window up*/down*
7  Power window lock switch*

NOTICE
In cold and wet climates, power windows may not work properly due to freezing conditions.
Driver’s seat
1. Forward and backward
2. Seatback angle
3. Seat cushion height*
4. Seat warmer*
5. Armrest*
6. Headrest

Front passenger seat
7. Forward and backward
8. Seatback angle
9. Seat warmer*
10. Headrest

Rear seat
11. Forward and backward
12. Armrest*
13. Headrest
14. Split folding rear seat

Seat [3]

Passenger’s front air bag ON/OFF switch [3]

Rearward-facing child restraint system [3]

Installing a child restraint system by lap/shoulder belt [3]

Securing with “ISOFIX” system and “Tether Anchorage” system* [3]

1. ISOFIX Anchor Position Indicator
2. ISOFIX Anchor

Securing with “Tether Anchor” system* [3]
Climate Control System

Automatic climate control system* [4]
1 AUTO (automatic control) 5 Fan speed control 8 Rear window defroster
2 Temperature control 6 Air conditioning 9 Air intake control
3 Blower OFF 7 Front windsreen defroster 10 A/C display
4 Mode selection

Manual climate control system* [4]
1 Fan speed control 5 Rear window defroster
2 Mode selection 6 Air intake control
3 Temperature control 7 Air conditioning
4 Front windshield defroster
Lighting control [4]
1. OFF
2. Position light
3. Headlight
4. Auto light*

Auto light function* [4]
If the light switch is in AUTO position, the headlights will be turned ON or OFF automatically, depending on the amount of light detected by the sensor below the windshield.
1. Sensor

Tilt & telescopic steering [4]
Steering wheel adjustment:
1. Pull down lock release lever.
2. Adjust the steering wheel to the desired angle.
3. Height adjustment.
4. Pull up lock release lever to lock the steering wheel.

Cruise control system* [5]
Activate Cruise Control System by pressing the shown button.
1. Set cruise control speed by moving the lever down to SET -.
2. To increase cruise control set speed.
3. To decrease cruise control set speed.
4. Cancel cruise control set speed by pressing the Cancel button.
5. Resume cruising speed by moving the lever up to RES +.
**Towing [6]**

When towing your vehicle in an emergency without wheel dollies:

1. Set the ignition switch in the ACC position.
2. Place the transaxle shift lever in N (Neutral).
3. Release the parking brake.

**Emergency towing**

If towing is necessary, we recommend you to have it done by an authorised Kia dealer or a commercial tow truck service.

**Removable towing hook**

1. Open the tailgate and remove the towing hook from the tool case.
2. Remove the hole cover pressing the lower part of the cover on the bumper.
3. Install the towing hook by turning it clockwise until it is fully secured.
4. Remove the towing hook and install the cover after use.

**Spare tyre, jack and tools** [6]

Pull up the luggage box cover to access the equipment.

1. Jack handle
2. Jack
3. Wheel lug nut wrench

**Tyre Mobility Kit** [6]

Please read the instructions before using the Tyre Mobility Kit.

1. Compressor
2. Sealant bottle

With the Tyre Mobility Kit it is possible to stay mobile even after experiencing a tyre puncture.

Once the punctured tyre is properly sealed, cautiously drive (up to max. 200 km (120 miles)) at a max. speed of 80 km/h (50 mph) to the nearest vehicle or tyre service point, in order to have the tyre repaired or replaced.
Checking the engine oil level [7]
Warm up the engine to operating temperature and switch off. On level ground pull the dipstick out and wipe clean before reinserting it fully. Pull the dipstick out again and check the level. It should be between F and L.

Refilling engine oil [7]
Only refill with the specified engine oil [8], using a funnel to avoid spillage on engine components.

Checking the washer fluid level [7]
Check the fluid level and add fluid if necessary.

Additional Information*

Idle Stop & Go (ISG)
When enabled, ISG automatically stops the car's engine to reduce fuel consumption and emissions. The ISG function may not work if the car's battery charge status, ambient temperature and/or engine temperature is too low. Air conditioning/heater control settings may also affect ISG function.

Starting your vehicle with the parking brake applied:
• For Manual Transaxle vehicles: Make sure the transaxle is in Neutral and the clutch pedal is fully depressed before starting the vehicle.
• For Automatic Transaxle vehicles: Make sure the transaxle is in the P (Park) position and the brake pedal fully depressed before starting the vehicle.

Hill-Start Assist Control (HAC)
This is designed to assist with hill starts by preventing the car rolling backwards when driving off. The system maintains the braking pressure in certain circumstances for 2 seconds enabling to pull away when you are ready.

Parking brake (handbrake)
When engaging the parking brake, apply the footbrake first and keep it depressed. Then ensure the parking brake is properly applied according to the type. Hand type: pull the parking brake lever up as far as possible. Foot type: depress the parking brake pedal down as far as possible. Electric (EPB) type: pull up the EPB switch and make sure the warning light comes on.

We strongly recommend to leave the car in first or reverse gear or in the 'P' (Park) position on automatics when leaving the car.

The Kia Service App – now available for free on iPhone/iPad and Android
With the Kia Service, you have (almost) all Kia dealers in Europe within reach*. Looking for a showroom or just a service, the app displays all dealers around your current location on the map. With one click you can call a dealer, visit their website or get directions to the showroom. Great for travel at home or abroad.
