This Quick Reference Guide is a summary of basic vehicle operations. It contains brief descriptions of fundamental operations so you can locate and use the vehicle’s main equipment quickly and easily.

The Quick Reference Guide is not intended as a substitute for the Owner’s Manual located in your vehicle’s glove box. We strongly encourage you to review the Owner’s Manual and supplementary manuals so you will have a better understanding of your vehicle’s capabilities and limitations.

Your dealership and the entire staff of Toyota Motor Sales, U.S.A., Inc. wish you many years of satisfied driving in your new Venza.

A word about safe vehicle operations

This Quick Reference Guide is not a full description of Venza operations. Every Venza owner should review the Owner’s Manual that accompanies this vehicle.

Pay special attention to the boxed information highlighted in color throughout the Owner’s Manual. Each box contains safe operating instructions to help you avoid injury or equipment malfunction.

All information in this Quick Reference Guide is current at the time of printing. Toyota reserves the right to make changes at any time without notice.

INDEX
Instrument panel

Steering wheel controls

1. Steering wheel audio controls\(^1,2,3\)
2. Telephone controls\(^1,2,3\)
3. Voice command button\(^1,2,3\)
4. Cruise control
5. Ignition switch (standard key)\(^1\)
6. Headlight, turn signal and front fog light controls
7. Wiper and washer controls
8. “ENGINE START STOP” button (Smart Key)\(^1\)
9. Multi-Information Display
10. Emergency flasher button
11. Multi-Information Display switches
12. Navigation system\(^1,2\)/Display Audio system\(^1,3\)

13. Air Conditioning controls
14. Outside rearview mirror defoggers/Rear window defogger button/
   Windshield wiper de-icer
15. Power back door switch\(^1\)
16. Intuitive parking assist switch
17. Enhanced VSC/TRAC OFF switch
18. Power back door main switch\(^1\)
19. Power outside rearview mirror controls

\(^1\) If equipped
\(^2\) For details, refer to the “Navigation System Owner’s Manual.”
\(^3\) For details, refer to the “Display Audio System Owner’s Manual.”
Instrument cluster

1. Tachometer
2. Service indicators and reminders
3. Speedometer
4. Fuel gauge
5. Engine coolant temperature
6. Odometer/Trip meter and trip meter reset button/Instrument panel light control
7. Odometer and two trip meters
8. Automatic Transmission shift position indicator
9. Automatic Transmission shift range display

For details, refer to “Indicators and warning lights,” Section 2-2, 2014 Owner’s Manual.

- Low windshield washer fluid level warning
- Smart Key system warning
- Low fuel level warning
- Open door warning
- Airbag SRS warning
- Master warning
- Low Tire Pressure Warning
- Headlight low/high beam indicator
- Turn signal indicator
- Fog light indicator
- Slip indicator/Hill-start Assist Control indicator
- Cruise control/Cruise control SET indicator
- Anti-lock Brake System warning
- Automatic high beam indicator
- Security indicator
- Vehicle Stability Control OFF indicator
- Traction Control OFF indicator
- Low Engine oil pressure warning
- Automatic headlight leveling system warning
- Engine oil replacement reminder

1 If indicator does not turn off within a few seconds of starting engine, there may be a malfunction. Have vehicle inspected by your Toyota dealer.

2 If this light flashes, refer to “Cruise control,” Section 2-4, 2014 Owner’s Manual.

**Keyless entry**

**Locking operation**

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Keyless entry lock icon" /></td>
<td><img src="image" alt="Keyless entry lock icon" /></td>
</tr>
</tbody>
</table>

**Unlocking operation**

<table>
<thead>
<tr>
<th>Without Smart Key system</th>
<th>With Smart Key system</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Keyless entry unlock icon" /></td>
<td><img src="image" alt="Keyless entry unlock icon" /></td>
</tr>
</tbody>
</table>

**Panic button**

![Panic button icon](image)

**NOTE:** If a door is not opened within 60 seconds of unlocking, all doors will relock for safety.

---

**Smart Key system (if equipped)**

**Start function**

- Green indicator ON
- Carrying
- Depress brake pedal
- Push

**NOTE:** Gear shift lever must be in Park and brake pedal depressed.

**Power (without starting engine)**

- Without depressing the brake pedal, pressing the “ENGINE START STOP” button will change the operation mode in succession from:
  - **ACCESSORY**
    - Accessories such as the radio will operate.
  - **ON**
    - Power ON; the engine not running.
  - **OFF**
    - All systems OFF.

**Locking operation**

- Front door lock
  - Touch
  - Carry remote to lock

**Unlocking operation**

- Front door unlock*
  - Grasp
  - Carry remote to unlock

* Driver door unlocking function can be programmed to unlock driver door only, or all doors. Grasping passenger door handle will unlock all doors.

**NOTE:** Doors may also be locked/unlocked using remote.
Hood release

Pull up latch and raise hood

Engage support rod

Fuel tank door release and cap

NOTE: Tighten until one click is heard. If the cap is not tightened enough, Check Engine “DENSO” indicator may illuminate.

Light control-Instrument panel

Brightness control

Engine maintenance

2.7 L 4-cylinder (1AR-FE) engine

3.5 L V6 (2GR-FE) engine

1. Engine coolant reservoir
2. Engine oil filler cap
3. Engine oil level dipstick
4. Windshield washer fluid tank

NOTE: Regularly scheduled maintenance, including oil changes, will help extend the life of your vehicle and maintain performance. Please refer to the “Warranty Maintenance Guide.”
**Automatic Transmission**

The "ENGINE START STOP"/ignition switch must be "ON" and the brake pedal depressed to shift from Park.

**"S" (Sequential) mode**

Shift the shift lever to "S" position from "D" position.

- : Upshift (push and release)
- : Downshift (pull and release)

Downshifting increases power going uphill, or provides engine braking downhill. For best fuel economy during normal driving conditions, always drive with the shift lever in the "D" position.

**Parking brake**

Set: Depress
Release: Depress again

**Auto lock/unlock**

Automatic door locks can be programmed to operate in four different modes, or turned OFF.
- Doors lock when shifting from Park.
- Doors lock when the vehicle speed is approximately 12 mph or higher.
- Doors unlock when shifting into Park.
- Doors unlock when the driver’s door is opened within 10 seconds after turning the "ENGINE START STOP" or ignition switch OFF.

Refer to the Owner’s Manual for more details.

**Seat adjustments-Front**

<table>
<thead>
<tr>
<th>Manual seat</th>
<th>Power seat (if equipped)</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Seat adjustments-Front" /></td>
<td><img src="image" alt="Power seat (if equipped)" /></td>
</tr>
</tbody>
</table>

- Seat back angle
- Seat position (forward/backward)
- Seat position; cushion angle and height (driver side only)
- Lumbar support

**Driving position memory**

To set driver seat and outside rearview mirror positions:

1. The "ENGINE START STOP"/ignition switch must be "ON" and the shift lever in the "P" position.
2. Adjust driver seat and outside rearview mirrors to desired positions.
3. While pressing "SET" button, press button “1” or “2” until a beep sounds.

Press button “1” or “2” to recall set position.
Seat adjustments-Rear

Refer to the Owner’s Manual for more details.

Seats-Folding rear row seats

1. Stow the seat belt buckles.
2. Hook the seat belt to the seat belt hangers.
3. Fold down the seat backs.

Seats-Head restraints

Front and rear (excluding center) seats
Rear center

Windows-Power

Automatic operation Push the switch completely down or pull it completely up and release to fully open or close. To stop window midway, lightly push the switch in the opposite direction.

Window lock switch Deactivates all passenger windows. Driver’s window remains operable.

Moonroof (if equipped)

Recommended open position to minimize wind noise.

Tilting operation

Push once to open partway; again to open completely.
Lights & turn signals

Headlights

Without automatic high beam

-Daytime Running Light system (DRL) Automatically turns on the headlights at a reduced intensity.
-Automatic light cut off system Automatically turns lights off after a delay of 30 seconds.

Automatic high beam (if equipped)

Activate*

The Automatic High Beam uses a sensor to assess the brightness of nearby light and automatically turns high beam on or off as necessary. To activate, push the lever away from you with the headlight switch in the AUTO position with the engine on.*

* Refer to the Owner's Manual for more details on the automatic high beams.

Front fog lights (if equipped)

Front fog lights come on only when the headlights are on low beam.

Turn signals

Windshield wipers & washers

Front

* Intermittent windshield wiper frequency adjustment
Rotate to increase/decrease wipe frequency.

Rear

Wash and wipe
Wipe
Interval wipe
Wash and wipe
**Seat heaters (if equipped)**

- **Driver’s seat**
- **Front passenger’s seat**

**Air Conditioning/Heating**

1. **Push:** Automatic climate control ON
   - Adjusting the temperature setting will cause the airflow vents, air intake and fan to adjust automatically.
   - **Turn:** Temperature selector (driver side)
2. **Fan speed**
3. **Airflow vent**
   - In “?” mode, use fresh air (“?” indicator OFF) to reduce window fogging. “?” mode uses fresh air only.
4. **Push:** Dual operation ON/OFF
   - Separate temperature setting or synchronized temperature setting for driver and passenger.
   - **Turn:** Temperature selector (front passenger side)
5. **Air Conditioning ON/OFF**
6. **Recirculate cabin air (fresh air when OFF)**
7. **Outside rearview mirror/Rear window defogger/Windshield wiper de-icer**
8. **Windshield defogger**
9. **Climate control OFF**

**Enhanced VSC OFF button**

The Enhanced VSC OFF button is used to switch between modes related to the TRAC and Enhanced VSC functions.

Refer to Section 2-4 of the Owner’s Manual for more information.

**Power outlets-12V DC**

**NOTE:** Designed for car accessories. The “ENGINE START STOP”/ignition switch must be in the ACCESSORY or ON position to be used.
FEATURES/OPERATIONS

Audio

Type 1 - Entune Audio Plus*

- Touch screen display
- Push to turn ON/OFF
- Eject CD
- Push to display AUDIO screen
- Push to display APPS
- Push to display HOME screen

- Turn to tune radio stations manually or select tracks or files
- Seek station/CD track select
- Push to start a call
- Push to pause or resume playing

Type 2 - Entune Premium Audio with Navigation and App Suite*
Type 3 - Entune Premium JBL with Navigation and App Suite*

- Touch screen display
- Push to turn ON/OFF
- Eject CD
- Push to display AUDIO screen
- Push to display APPS
- Push to display HOME screen

- Turn to tune radio stations manually or select tracks or files
- Seek station/CD track select
- Push to start a call
- Push to pause or resume playing

USB/AUX port

By inserting a mini plug into the USB/AUX port, you can listen to music from a portable audio device through the vehicle's speaker system while in USB/AUX mode.

Steering wheel switches

1. “Δ ∧”
   Use to search within the selected audio medium (radio, CD, iPod®, etc.).
2. “MODE”
   Push to turn audio ON and to select an audio mode. Push and hold to mute/unmute or pause/resume current operation.

* Refer to the "Navigation and Multimedia System Owner’s Manual" for instructions and more information.
**Cruise control**

**Turning system ON/OFF**

1. **Set**
2. **Resume**
3. **Cancel**

**Functions**

- Increase speed
- Decrease speed

---

**Hill-start Assist Control (HAC)**

HAC helps prevent rolling backwards on an incline. To engage, push further down on brake pedal while at a complete stop until a beep sounds and slip indicator illuminates. HAC holds for approximately two seconds after releasing brake pedal.

Refer to the *Owner’s Manual* for more details.

---

**Garage door opener (HomeLink®)* (if equipped)**

Garage door openers manufactured under license from HomeLink® can be programmed to operate garage doors, estate gates, security lighting, etc.

Refer to “Garage door opener,” Section 3-5 in the *Owner’s Manual* for more details.

For programming assistance, contact HomeLink® at 1-800-355-3515, or visit http://www.homelink.com.

* HomeLink® is a registered trademark of Johnson Controls, Inc.
FEATURES/OPERATIONS

Multi-Information Display (clock)

TFT type

Push “INFO” or “INFO-CLOCK” to change information in the following:
(1) Average fuel economy (AVERAGE ECON)
(2) Current fuel economy (CURRENT ECON)
(3) Distance to empty (RANGE)
(4) Average speed (AVERAGE SPEED)
(5) Trip timer (TFT type only)

Setting the clock

TFT type (1) Press the “SETUP” button for the “Custom Settings” screen.
(2) Select “Clock” on the Display Settings screen, and press the “SELECT RESET” button. (3) Press the “INFO” button to adjust the hours and the “SETUP” button to adjust the minutes. (4) Press the “SELECT RESET” button to set the clock.

LCD type (1) Press and hold the “INFO-CLOCK” button until part of the display begins to flash. (2) Press and hold the “RESET-H” button to adjust the hours and the “US/M-M” button to adjust the minutes. (3) Press the “INFO-CLOCK” button to complete the setting.

Customizable features

If your vehicle has a TFT type Multi-Information Display, you will be able to customize certain electronic features. Press the “SETUP” button while stopped to access the “Custom Settings” screen.

Please see the Owner’s Manual for details.

Tilt and telescopic steering wheel

Hold wheel, push lever down, set angle and length, and return lever.

NOTE: Do not attempt to adjust while the vehicle is in motion.

Door-Power back (liftgate) (if equipped)

Instrument panel

Push and hold

Open: Push and hold
Close: Push and hold again

Back door (liftgate) (open only)

Remote control (without Smartkey)
Remote control (with Smartkey)

NOTE: If battery is disconnected, the power back door needs to be reinitialized. Refer to the Owner’s Manual for more details.
SAFETY AND EMERGENCY FEATURES

Door locks

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Seat belts

If belt is fully extended, then retracted even slightly, it cannot be re-extended beyond that point, unless fully retracted again. This feature is used to help hold child restraint systems securely.

To find more information about seat belts, and how to install a child restraint system, refer to the Owner’s Manual.

Seat belts-Shoulder belt anchor

Tire Pressure Monitoring (warning) System

If tire pressure becomes critically low on any of the tires (excluding the spare), “！” indicator will illuminate. Correctly adjusting tire inflation will turn off the light after a few minutes. If the light does not turn off, have the system checked by your Toyota dealer.

Refer to the Owner’s Manual for more details.

Doors-Child safety locks

Moving the lever to the lower position will allow the door to be opened only from the outside.

Spare tire & tools

Tool location

Removing the spare tire

Refer to the Owner’s Manual for tire changing and jack positioning procedures.
**Star Safety System™**

All new Toyota vehicles come standard with the Star Safety System™, which combines Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Braking System (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology (SST).

**Vehicle Stability Control (VSC)**

VSC helps prevent loss of traction during cornering by reducing engine power and applying brake force to selected wheels.

Toyota’s VSC monitors steering angle and the direction your vehicle is traveling. When it senses that the front or rear wheels begin to lose traction, VSC reduces engine power and applies braking to selected wheels. This helps restore traction and vehicle control.

**Traction Control (TRAC)**

VSC helps prevent loss of traction during cornering by reducing engine power, and Traction Control helps maintain traction on loose gravel and wet, icy, or uneven surfaces by applying brake force to the spinning wheel(s).

Toyota’s TRAC sensors are activated when one of the drive wheels starts to slip. TRAC limits engine output and applies the brakes to the spinning wheel. This transfers power to the wheels that still have traction to help keep you on track.

**Anti-Lock Brake System (ABS)**

ABS helps prevent brakes from locking up by “pulsing” brake pressure to each wheel. This limits brake lockup and helps provide directional control for the current road conditions.

Toyota’s ABS sensors detect which wheels are locking up and limits wheel lockup by “pulsing” each wheel’s brakes independently. Pulsing releases brake pressure repeatedly for fractions of a second. This helps the tires attain the traction that current road conditions will allow, helping you to stay in directional control.

**Electronic Brake Force Distribution (EBD)**

Toyota’s ABS technology has Electronic Brake-force Distribution (EBD) to help maintain control and balance when braking. Abrupt stops can cause a vehicle to tilt forward, reducing the braking power of the rear wheels. EBD responds to sudden stops by redistributing brake force to enhance the braking effectiveness of all four wheels.

**Brake Assist (BA)**

Brake Assist is designed to detect sudden or “panic” braking, and then add braking pressure to help decrease the vehicle’s stopping distance. When there’s only a split second to react, Brake Assist can add additional brake pressure more quickly than just the driver alone can.

**Smart Stop Technology (SST)**

Smart Stop Technology automatically reduces engine power when the accelerator and brake pedals are pressed simultaneously under certain conditions.

SST engages when the accelerator is depressed first and the brakes are applied firmly for longer than one-half second at speeds greater than five miles per hour. SST doesn’t engage if the brake pedal is depressed before the accelerator pedal, allowing vehicles to start on a steep hill and safely accelerate without rolling backward.

**Floor mat installation**

There are two types of Toyota floor mats: carpeted and all-weather. Each vehicle has model-specific floor mats. Installation is easy.

To keep your floor mat properly positioned, follow these steps:

- Only use floor mats designed for your specific model.
- Use only one floor mat at a time, using the retaining hooks to keep the mat in place.
- Install floor mats right side up.
BLUETOOTH® DEVICE PAIRING SECTION
To begin the Bluetooth® Pairing process, press the SETUP button on the faceplate of your Toyota Vehicle Entune™ Multimedia Head Unit for vehicles equipped with Entune™ Audio. For vehicles equipped with Entune™ Audio Plus, Entune™ Premium or Entune™ Premium with JBL, begin by pressing the HOME button on the faceplate.

Bluetooth® Pairing for Android® phone and Entune™ touch screen system

Pairing your phone is the first step in connecting with your Toyota for hands-free calling and for audio streaming via Bluetooth. This pairing process is quick and easy: all Android mobile digital devices have Bluetooth integrated; all you have to do is setup the phone and multimedia system to “talk” to each other and form a connection.1

Initiate Bluetooth® on your Android®

**STEP 1**
From your APPS SCREEN, select SETTINGS

**STEP 2**
Select CONNECTIONS and select BLUETOOTH

**STEP 3**
Ensure BLUETOOTH is ON

**STEP 4**
Select YOUR PHONE DEVICE to make it discoverable.

**STEP 5**
While your Android device is seeking out Bluetooth devices, proceed to your Entune Multimedia Head Unit on your Toyota vehicle.

**STEP 6**
On your Toyota Vehicle Entune Multimedia Head Unit, Select BLUETOOTH

**STEP 7**
Select ADD, to add your phone device

**STEP 8**
On your Toyota Vehicle Entune Multimedia Head Unit, Select SETUP BUTTON on the Home Screen.

**STEP 9**
Back on your smartphone, you can now select your TOYOTA VEHICLE in Bluetooth Settings. You may need to enter the provided Bluetooth PIN on your phone.

**STEP 10**
Your smartphone is now paired with Entune.

**STEP 11**
Once paired, Entune will attempt to connect audio and contacts on your phone.

Initiate Bluetooth® on your Entune™ Multimedia Head Unit

Once you have Bluetooth enabled on your phone and ready to pair, you will need to initiate Bluetooth on your Entune head unit. Please follow the instructions below to pair your Bluetooth enabled phone to your Entune system.

1 Some Android devices may have slightly different SETTINGS screen layout depending on manufacturer of device and Android OS version.
Initiate Bluetooth® on your Entune™ Multimedia Head Unit (continued)

STEP 12
Using your smartphone, you will need to allow Entune access to your messaging and contacts.

STEP 13
A confirmation will appear once your phone has been paired and connected.
